

GEOMETRIC EXPRESSIONS

Cairns Photographic Society

20 December to 24 January 2010

Conceptualizing the theme of *Geometric Expressions* allows the photographer to exercise their vision in expressing the interplay of lines and light. The exhibition displays the broad variety of the photographers and their interpretation of the theme from broad strokes of colour to formalized objects. These subjects are found in a variety of locations ranging from above the land to below the surface of the water.

The Cairns Photographic Society's inaugural meeting was held in Cairns in the year 1899 with a membership of nine; and the changes in photography since then have been amazing.

The club reverted back to the original name, Cairns Photographic Society, after several name changes and now has a membership of over 100. It is involved in organising the Photographic section at the Cairns Show each year and also assisted with the Cairns Regional Council's Sister City photographic exhibition *Faces of a Sister City* held at Tanks Art Centre recently. The club also held their own exhibition at Tanks Art Centre. There are monthly club photo competitions as well as competing with clubs in the UK and America, and

Photography, a valuable art form that has been used for the recording of time and history, memories good and bad, with the photo being one of our most treasured possessions.

Dell Deed – Cairns Photographic Society Exhibition Coordinator
